SUMMARY

Highly skilled Front-End Developer with 2 years of experience in creating dynamic and responsive web applications using HTML, CSS, JavaScript, and React.js. Demonstrated ability to collaborate with cross-functional teams to deliver high-quality code, improve user experience, and optimize performance. Proven track record in utilizing modern frameworks and tools to build scalable and maintainable applications. Adept at problem-solving and debugging to ensure seamless user interfaces.

SKILLS SUMMARY

- **Languages:** JavaScript, Html, CSS
- **Frameworks:** React Js, Bootstrap, Redux
- **Tools:** GIT, NPM ,Webpack, VsCode, DevTool
- **Platforms:** Linux, Windows
- **Others:** RESTful APIs, Cross-Browser Compatibility, Debugging, Code Spilting, Lazy Loading

EXPERIENCE

- **Digital Microsys Technologies** Aug 2022 - Present
 - **Front End Developer (Full-time)**
 - Developed and maintained responsive web applications using React.js, ensuring cross-browser compatibility and adherence to best practices. .
 - Collaborated with UX/UI designers to translate design mockups into fully functional, interactive, and aesthetically pleasing user interfaces.
 - Utilized React Router for seamless navigation within single-page applications (SPAs), enhancing user experience and reducing page load times
 - Leveraged Redux for efficient state management, ensuring consistent data flow and simplifying complex application states
 - Debugged and resolved front-end issues using browser developer tools, ensuring smooth functionality and performance optimization.
 - Maintained version control using Git, collaborating with team members through pull requests and code reviews on platforms like GitHub and Bitbucket.
 - Optimized web applications for maximum speed and scalability, implementing lazy loading and code splitting techniques.

PROJECTS

- **Web Application for M and M Digital Solutions :**
 - Role Played:** Frontend Developer
 - This is e-commerce web application designed for making simple way to interact their customers with company. It helps companies' clients to know more about companies' facilities and make interactions with them in this digital world.
 - Tech:** Html, CSS, Javascript, React Js
- **Enterprise Application Sugarcane Factory :**
 - Role Played:** Frontend Developer
